About Oregon Friends of C.G. Jung

The ideas of visionary Swiss psychiatrist Carl Gustav Jung (1875–1961) remain a source of inspiration and enlightenment for those who wish to explore the wisdom, creativity, and healing potential of the psyche. Jung invited us to connect with the powerful unconscious energies that move through each of us, are present in our dreams and creative imagination, and speak to us in symbolic language. By engaging in this inner work, Jung believed we are able to discover and integrate our undeveloped or neglected capacities, embody our authentic selves, and gain meaning in our lives.

Since 1974, Oregon Friends of C.G. Jung has invited leading Jungian analysts and scholars from around the world to bring their insightful and innovative perspectives to our community in Portland. OFJ's annual program season features eight weekends of Friday Talks and Saturday Workshops in which Jungian ideas are explored in depth.

We are a community of people seeking to enlarge and deepen our understanding of life's challenges and stages through an inner exploration that offers an abiding sense of shared meaning and purpose. We welcome all people, in all stages of life, at all levels of familiarity with Jung's work. We invite you to join us.

Members of Oregon Friends of Jung receive free admission to our season of Friday Talks, discounts to Saturday Workshops, and a host of other benefits. Membership in Oregon Friends of Jung brings you into a vibrant, diverse community of other engaged individuals on the journey to understanding and wholeness. Become a member at ofj.org.

Our history

In the early 1970s, an era of emerging social consciousness and individual exploration, fifty people responded to an ad placed by our founder, Dottie Kyle, in a small, local newspaper, *The Lake Oswego Review*. They gathered under a shade tree in her backyard to share ideas about Jungian psychology. They were hungry for discussion and community. Out of this gathering of seekers, Oregon Friends of Jung was born.

Before long, those early OFJ members began inviting leading Jungians to Portland as a way of nourishing themselves and serving the community. Programs with Joseph Campbell, James Hillman, Edward Edinger, Joseph Wheelwright, Marion Woodman, Thomas Moore, and Robert Johnson attracted attendees from around the state and beyond.

Now in our 49th year, Oregon Friends of Jung is a 300-member volunteer-driven 501(c)(3) non-profit educational organization, with an Executive Director and passionate Board. We remain conscious of the vision of our founders: to serve our community humbly and with few organizational trappings, offering serious Jungian discourse to individuals who are searching for consciousness and meaning in their personal lives and in the world.

OFJ audio & video archives

OFJ seeks fresh and innovative Jungian ideas, delivered by speakers with expertise, depth and integrity. Presenters, most of whom are Jungian analysts, often prepare new material especially for us. Since our beginnings, we have audio-recorded, and as of 2020, video-recorded these presentations, thus making our collection one of the most unique and valued Jungian archives in the world. We are proud to make this collection available to our members through our library and streamed on our website.

The OFJ Fae Dougan Library

Our large collection of Jungian books and journals—many rare and out of print—as well as program recordings and the latest books by recent speakers, are available to the general public at 811 NW 20th Ave., and can be checked out by members. Visit ofj.org to learn more about our library.

PNSJA analyst seminars

In partnership with the Pacific Northwest Society of Jungian Analysts, OFJ offers a series of in-depth, small-group seminars on Jungian topics such as Fairy Tales, Symbols, and Individuation. These seminars fill up quickly, with members receiving priority. Become a member or sign up for our newsletter at ofj.org to receive the latest information.

SEPTEMBER

Re-enchantment; Synchronicity; the Psychoid Imagination

JOSEPH CAMBRAY, PHD

Friday Talk
September 29
7:00 pm–9:00 pm

As we collectively enter more deeply into the paradigm shift towards complexity that marks the 21st century, some of Jung's most advanced concepts are gaining renewed vitality and acceptance. Links between individuation and synchronicity found in the *Red Book* contribute to new visions of reality. We will also explore the importance of the psychoid imagination as it is emerging in response to the recent COVID pandemic. These threads will be woven into the cultural movement towards re-enchantment of the world.

Saturday Workshop
September 30
10:00 am–3:00 pm

Beginning with exercises to help suspend everyday attachments to reductive rationality, we will be guided in imaginative encounters, often marked by a lived experience of wonder so natural in early childhood, but then set aside or suppressed by traditional education. Recovery of vibrant experiences associated with wonder provide access and foster eco-spiritual potentials inherent in our souls. Through discussion linking wonder with a range of synchronistic experiences, the collective wisdom of the group will explore hidden potentials for healing of persons, societies, and the ecosphere.

OCTOBER

The Trauma of Exile through a Jungian Lens

LOURDES HERNANDEZ, MA

Friday Talk
October 20
7:00 pm–9:00 pm

We will focus on how the trauma of political exile splits and shapes the psyche of displaced individuals, making their lives psychologically conflicted and leading to feelings of incongruity. Through the amplification of a fairy tale, dreamwork, active imagination, and the transcendent function, we will explore how Jungian psychology can assist displaced persons in fashioning a new mythic center that grounds the uncentered, culturally diverse self-states that have developed from acculturation. We will also discuss the universality of the exile complex as a human experience that often causes one to feel conflicted and displaced from family, community, and society.

Saturday Workshop
October 21
10:00 am–3:00 pm

We explore how Jungian analysis is uniquely suited to working with the exile complex. To deepen understanding of the exile complex, participants will be prompted to recall a personal experience with the feelings of exile (where one felt like an outsider, unmirrored, out of place), briefly journal and follow its thread, and invite the "Third" to produce a new sense or image of mythic centering (as discussed in the Lady Liberty example on Friday night). Participants will be invited to share and discuss this opening to Jung's Transcendent Function.

NOVEMBER

Fear, Skepticism, Lassitude: the Recovery of an Inner Life

JAMES HOLLIS, PHD

Friday Talk
November 10
7:00 pm–9:00 pm

ONLY

Resistance is always in due proportion to the anxiety generated by some invitation or challenge. Inside of each of us is continuing civil conflict, and typically our protective instincts are easily intimidated by the magnitude of the tasks life brings us. Moreover, we are often flooded with skepticism regarding our inherent resources for the trial, and an internal aversion to the struggle. These engagements, these battles of outer and inner worlds, are only resolved when we are led to a change of attitude, a riskier but more considered intent, and a consistent, daily showing up to tilt the balance between regression and progression.

**Saturday
Workshop**
November 11
10:00 am–3:00 pm

ONLY

What We Can Still Learn from Depth Psychology or Need to Remember

Jung's insights are still not grasped or fully appreciated in our time. Far from it. This workshop will explore seven ideas regarding what we can gain from an engagement with our own depths, and what tools we may employ to assist us in this exploration into ourselves.

DECEMBER

Jung's Relationship to Astrology

BECCA TARNAS, PHD

Friday Talk
December 1
7:00 pm–9:00 pm

+

UNITY

Jung kept his practice of astrology relatively concealed, but based upon his writings and statements made late in his life, Jung turned to astrological wisdom for both personal use and with his patients. Drawing on the research of Liz Greene, Keiron Le Grice and Safron Rossi, this talk explores the role of astrology in Jung's analytic practice, as well as ways he drew on astrological symbolism in the transformative process of creating *The Red Book*. By understanding astrology's influence on Jungian psychology, and how depth psychological discipline can complement, enhance, and deepen psychotherapy practiced today.

**Saturday
Workshop**
December 2
10:00 am–3:00 pm

+

UNITY

Jung & Archetypal Astrology

Depth psychology and archetypal astrology are complementary disciplines. This workshop offers a foundation in astrological techniques which can be applied to psychological practice, whether as a clinician or for personal inquiry. A brief history of archetypes, the symbolism of the planets and the zodiac, planetary aspects, and the procedure for calculating transits will be taught, along with workshop examples from art, culture, and history. This workshop may be a gateway to astrology for some. It can be a deepening of the archetypal perspective for those with an astrological practice.

Program & membership details

OFJ adapts to the moment

This season most weekend programs are in person, and live via Zoom for all who cannot attend in person. Programs are Zoom-only if speakers are not traveling. Please note the venue icons next to each program. OFJ remains committed to serving our community with options for learning and engaging with fellow seekers. As we continue to adjust to the changing times and the technology, we welcome your involvement. Please support us by becoming a member, volunteering your time and skills, and attending our programs.

Friday talks & Saturday workshops

Friday Talks provide a stimulating introduction to the speakers and their ideas. Programs run from 7:00 pm - 9:00 pm, including questions and discussion. Saturday Workshops allow for a deeper and more intimate experience with the presenter and their material, and may include experiential opportunities. Workshops run from 10 am to 3 pm, with breaks, including a 45-minute lunch break.
