The visionary Swiss psychiatrist Carl Gustav Jung (1875-1961) was a pioneer in depth psychology who remains a source of inspiration and enlightenment for those who are open to the wisdom, creativity, and healing potential of the psyche. Oregon Friends of C.G. Jung offers lectures and workshops in which Jungian ideas are explored in depth. Jung suggested that the psyche unfolds toward wholeness over the course of a lifetime, and our public programs are presented in the spirit of realizing this possibility at both the personal and collective levels – through a community of understanding. Those who attend our lectures and workshops seek to enlarge and deepen their understanding of life’s challenges and stages with the expectation that this inner work confers an abiding sense of shared meaning and purpose.

Since 1974, our volunteer organization has offered programs by leading Jungian analysts and scholars from around the world who bring their insightful and innovative perspectives to our community in Portland. Our members and our audience-at-large span all walks of life and all levels of familiarity with Jungian psychology. In addition to our annual program season, we offer an extensive library of books, journals, and recordings of our speakers. We invite you to attend our events and participate in a community of seekers who value an inner life.

Jeffrey Kiehl, PhD, is a Diplomate Jungian Analyst and senior training analyst for the C.G. Jung Institute of Colorado and the Inter-Regional Society of Jungian Analysts. He is a climate scientist, an adjunct professor at the University of California, Santa Cruz, and an adjunct faculty member of Pacifica Graduate Institute. He is the author of Facing Climate Change: An Integrated Path to the Future, which provides a Jungian perspective on climate change. Jeffrey has presented on various Jungian topics at national and international conferences. He lives in Santa Cruz, CA.

J. Gary Sparks, M.Div, is a 1982 diploma graduate of the C. G. Jung Institute in Zürich. He is the author of At the Heart of Matter: Synchronicity and Jung’s Spiritual Testament; Valley of Diamonds: Adventures in Number and Time with Marie Louise von Franz; and Carl Jung and Arnold Toynbee: The Social Meaning of Inner Work. As a contributor to the recent Zurich publication of Jung’s Red Book for Our Time, he finds endless wealth in Jung’s inner creative journey. His interests also include the parallels between the new physics and Jung’s psychology. He lives and practices in Indianapolis, Indiana.

Jutta von Buchholtz, PhD, is a senior Jungian analyst, with a doctorate in medieval literature from Vanderbilt University, which lends itself beautifully for a Jungian approach to fairy tales. She finds it deeply moving how archetypal themes, so cleverly and movingly embodied in fairy tales, continue to play themselves out in our daily lives in the twenty-first century – they bind and contain our common humanity. As part of her midlife crisis she received her diploma from the C.G. Jung Institute Zürich. Jutta is involved in training future Jungian analysts in the New Orleans and Atlanta/ Memphis seminars. She sees clients in Birmingham, Ala.

Tess Castleman, MA, LPC, is a Jungian training analyst and the author of Threads, Knots, Tapestries and Sacred Dream Circles. Besides practicing in Dallas and Zurich, she leads groups in dream circles, writing seminars, creative process experience as well as active imagination/dream retreats in locations throughout the world. She was elected to the Curatorium, (the governing body of the Jung Institute of Zurich) as the only non-resident of Switzerland where she served for six years. There she helped to implement a revamped English training program. She has founded Das Tiefengeist Institut, a training institute for helpers and healers to deepen their work with the unconscious. She lives in Manitou Springs, CO and Dallas, Texas.
